

PICNIC ISLAND SUSAK

EXCURSION BY BOAT

Susak is a unique island in terms of its formation and appearance. Thick layers of fine yellowish sand were piled up on a limestone slab by ancient winds. The residents have always planted reeds around their agricultural estates, the roots of which penetrate deep into the soil in search of water and protect it from erosion. Susak is an island of sand, with shallow sandy beaches ideal for children and unique traditions! After free time on the island there is a picnic on board.
